ROOF ATTACHMENT  
FOR METAL ROOFS

**ECOFASTEN**

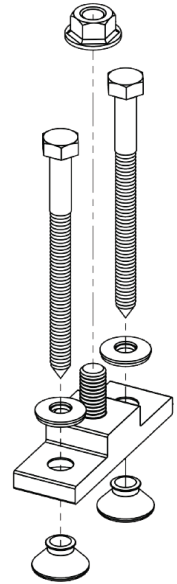

# SIM-SUPPORT

Our Sim-Support bracket with a center lift utilizes two of our watertight Simple Seal bushings. Sim-Support is engineered to be used on corrugated roofing, with fastener spacing that allows for two fasteners per metal purlin. Measures 3" L x 1" W x 1 23/50" H (including 3/8" - 16 Stud).

## FEATURES / BENEFITS

- Utilizes Simple Seal watertight bushing
- For use with a variety of EcoFasten attachments and roof mount components
- Ideal for narrow pans
- Two attachment points for optimum pull out values

## Pressurized Rain Leak Tests

The Simple Seal System showed no indication of leaking. The testing apparatus was flooded and pressurized to 30psi and let stand for over 10 minutes. This is the equivalent to 70ft of standing water.

**QUICK**  
**RELIABLE**  
**INNOVATIVE**

## CONNECT WITH ECOFASTEN

EcoFasten develops, engineers and supplies solar rooftop mounting solutions for the commercial, industrial and residential markets. Built on continuous innovation, rigorous quality and attentive customer service, EcoFasten has more than 6 GW of installed capacity worldwide. All mounting systems are designed and developed by installers for installers. EcoFasten has simplified installations with the fastest, most economical mounting solutions on the market.
