

# TILE HOOK FLASHING

## STAND ALONE REPLACEMENT FLASHING FOR TILE HOOKS

Tile Hook Flashing is a standalone flashing that can be used in conjunction with our ClickFit System or other third-party tile hooks. The flashing replaces a concrete tile, so there is no need for the cutting, drilling, or grinding of tiles. The flashing comes in three shapes that are made to fit most tile profiles.

## FEATURES & BENEFITS

- Works with third party tile hooks
- Replaces a concrete tile, extra tile can be used to replace broken tiles
- Available in Flat, S, and W shaped tile profiles
- Sierra Tan finish blends with most tile roofs

**ELIMINATES THE NEED FOR CUTTING, DRILLING, OR GRINDING TILES**
