

QB-1[®]

SUPER-STRONG POST & BASE FOR A VARIETY OF ROOF TYPES

The super-strong QB-1 system includes a base that easily attaches to composition shingle, tile, shake, slate, and metal shingle roofs. QB-1 is an ideal solution for new residential construction projects. Once the mount is installed, the roof can be shingled or tiled around it. Aluminum cone flashings sized to fit the posts are also available.

FEATURES & BENEFITS

- Strongest post & base mount in the industry
- Structural-Attach & Direct-Attach options available
- Malleable tile level flashing conforms to fit the shape of any tile profile
- Ideal solution for new residential construction projects
- [Florida Product Approved](#) for any combination of 4.5" or 6.5" QB-1 Post, Base, and Flashing installed on Tile, Composition Shingle, Metal Shingle, Shake, or Slate.
