

# SIMPLE BLOCK-U<sup>®</sup>

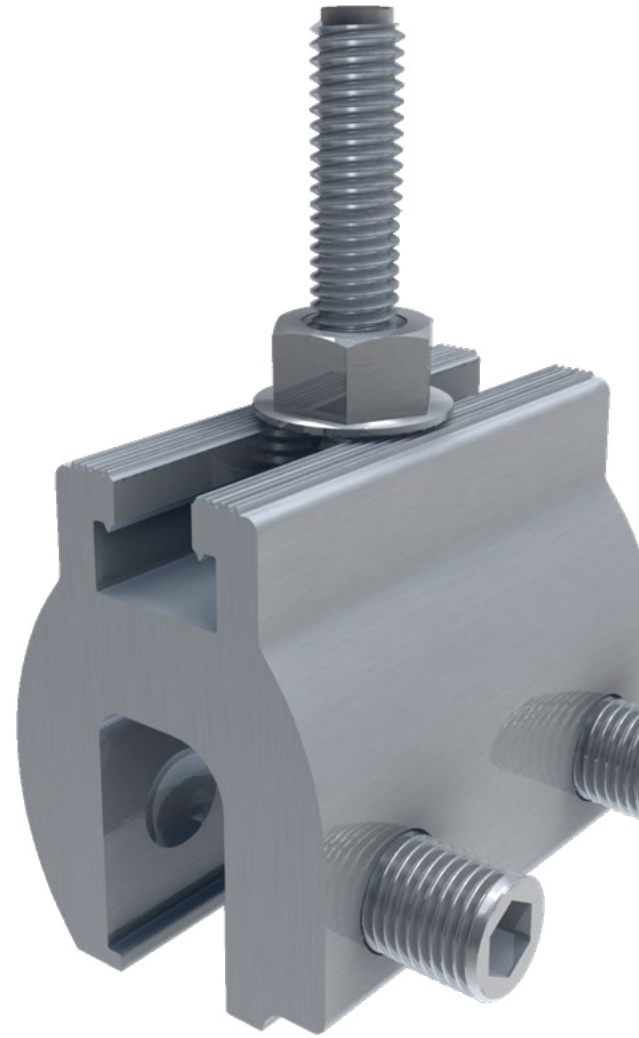

## RAIL-BASED CLAMP FOR METAL STANDING SEAM ROOFS

SimpleBlock<sup>®</sup>-U is a lightweight, yet durable solution for mounting a variety of brackets on a standing seam roof. Featuring a streamlined design and two (2) pre-installed oval-point set screws, SimpleBlock-U eliminates the need to penetrate the roofing material, while saving time on installation.

### FEATURES & BENEFITS

- Install on vertical, double-lock standing seam profiles
- No roof penetrations required
- North-South adjustability
- Conforms to UL 2703
- The technology in this product is licensed by S-5!

## TWO PRE-INSTALLED OVAL-POINT SET SCREWS FOR BRACKET ATTACHMENT VERSATILITY

**Metal Standing  
Seam**

**Rail-Based**

**Clamp-to-Seam**
